

As a result of the retirement of 2 members, the Village Community Speedwatch Team are currently seeking to recruit additional members. The role involves being available (in dry weather only!!) for hour long sessions 2 or 3 times per month - either between 07:45 to 09:30, and 15:00 to 17:00hrs (daylight and visibility dependant) . The task is very easy and involves the operation of a simple speed monitor, and the writing down of vehicle details. Full training is provided.

Whilst on the face of it we still have large numbers of speeders through our village, recent figures from Norfolk Police show that only 5% of those drivers caught by CSW Teams actually receive 2nd letters for repeat occurrences. This data clearly shows the positive impact that local CSW Teams are having across the County. Please do give this request some serious consideration, and if you feel that you have the time available - for either morning and/or afternoon sessions, and would like to join our very friendly team, then do please contact our CSW Team Co-ordinator - details below.

We really do need your help please.
